❄️ Queen Size Options ❄️

Finished Size 97" x 97"

These instructions will cover adding additional borders. You can adjust to whatever size you want by increasing the width and length of the borders, just be sure to take your measurements from the middle of the quilt to keep it squared up.

For each option you will continue to add the borders first to the sides and then to the top and bottom. I provide the cutting directions but no step by step for adding these borders.
